Weekly Routines

Reading Books

Reading books will continue to be given out on Fridays. Please encourage your child to change their reading book every week. We also practise our group and independent reading skills throughout the week during our Guided Reading sessions.

PE Lessons

Every Tuesday we will be taking part in bowling in Treherbert Bowls Club. Pupils can wear their uniform and trainers.

Homework

Will continue to be allocated through Dojo every Friday.

Supporting your child at home

Please help your child to learn the multiplication tables. Learning multiplication and division facts for instant recall will benefit them greatly during lessons.

Please endeavour to share daily reading time with your child (for at least 10 minutes). You could read together, read to your child or listen to them read. Discuss the content or simply enjoy the story together!

Pupils have log in details for Hwb, Gogleys (English) and Abacus (Maths). These online platforms offer a range activities and resources to support your child's learning.

Curriculum

Mathematics and Numeracy

We will continue to use a range of resources from our Fast Forward Maths and Abacus schemes. These aim to accelerate pupils' mathematical skills and provide them with authentic contexts in which to develop their knowledge of the number system.

Language, Literacy and Communication

Our main focus this term will be visual literacy, poetry and persuasive letter-writing.

Welsh

Our Welsh topic this term is 'Amser' and 'Hobiau'. Pupils will be learning to tell the time in Welsh and learn vocabulary around their daily routines and interests.

Rich Tasks and Investigations

This term our topic is called, 'Whose planet is it anyway?' Pupils will be learning all about space. The pupils have already played an active role in deciding what they wish to learn. During their pupil voice session, they suggested what they would like to learn about this topic and helped develop our lines of inquiry for this term.

Health and Wellbeing

During our P.E. lessons, we will be bowling at Treherbert Bowls Club. We will also take part in a local derby, by competing against Penpych towards the end of the Summer - finger crossed for a Penyrenghlyn victory. We will also be learning about relationships and substance misuse.

Behaviour

We are continuing with our 'Good to Be Green' focus in school which aims to promote positive behaviours and celebrate those pupils who always strive to do their best. It also offers some guidance and support for those that require it. Dojo Points will continue to be given as a reward throughout the day and will be reset daily. The class can also work collectively to earn a chosen reward - by earning marbles in their jar. When it is full, they have earned their reward.
